

# Go PINK™ From All Angles

Rely on quality EcoTouch® PINK™ FIBERGLAS® Insulation with PureFiber® Technology and FOAMULAR® Insulation products to improve energy efficiency by up to 28%†. For peace and quiet, use the EcoTouch® QuietZone® Acoustical Noise Control system to help reduce the level of noise transmitted throughout your home. As the trusted name for insulation in Canada, Owens Corning has everything you need to insulate a home from below the basement right up through the rafters.

Pub. No. 300730B. Printed in Canada December 2013. The colour PINK is a registered trademark of Owens Corning. †Up to 28% heating and cooling savings based on Hot 2000, Version 8.7 run for a 2 storey 1972 type base house with 1149 sq.ft. per floor for an increase from R-8 to R-40 in the attic plus an increase from zero to R-20 in the basement walls in Canadian climates. 73% recycled content is based on the average recycled glass content in all Owens Corning fiberglass batts, rolls and unbonded loosefill insulation manufactured in Canada. SCS certified. Owens Corning PINK™ insulation is GREENGUARD Certified for indoor air quality, except bonded loosefill products. This product has achieved GREENGUARD GOLD Certification and is verified to be formaldehyde free. The insulation is manufactured with a blowing agent with 70% less global warming potential as compared to Owens Corning previous blowing agents. © 2013 Owens Corning. All Rights Reserved.
